Scroll Airdrop Brief

Snapshot Date: October 19, 2024, 00:00 UTC

Claim Period: October 22, 2024 – January 20, 2025 (90 days)

https://scroll.io/blog/introducing-scrolls-first-airdrop-a-celebration-of-the-global-community

Eligibility & Distribution Rules:

- Scroll's airdrop rewards key contributors across four sectors (Community Drop, Ecosystem Projects, Industry Contributors, Global Community) with fixed token amounts per category.
- Claimants must meet category-specific criteria (e.g., ≥200 Marks for on-chain participants)

Scoring Formula:

- **Base:** 40M SCR (4%) to on-chain users with ≥200 Marks (via Sessions Program)
- **Flat Boost:** 10M SCR (1%) equally among all eligible on-chain participants
- **Bonus:** 5M SCR (0.5%) equally to those who meet at least one public goods criterion (e.g., ENS, Gitcoin, Juicebox, smart contract wallet)
- **Canvas Boost:** Bonus Marks (25-60) awarded based on number of identity badges, increasing user's Marks score to increase chances of eligibility

Anti-Sybil Checks:

- **Public Goods Criteria:** Verifies ENS ownership, Gitcoin/Juicebox donations, or smart contract wallet use
- **Badge-based Boosting:** Harder to Sybil due to manual effort and identity verification
- **Participation Thresholds:** 200-Mark minimum requires real on-chain engagement

Key Numbers:

- **Total:** 70,000,000 SCR (7% of total supply) distributed
- **Community Drop:** 55M SCR (4% proportional, 1% flat, 0.5% bonus)
- **Ecosystem Projects:** 6.98M SCR across 100+ Scroll-native projects (TVL + integration-based)
- **Industry Contributors:** 4.44M SCR to developers, researchers, and public good organizations
- **Global Community:** 3.39M SCR to organizers, hackathon winners, translators, moderators, etc.
